PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tenness e W. E. CHILDS & CO.'S PATENT ELAS. TIC FIRE AND WATER-PROOF CEMENT ROUFING, and ask the attention of Architects, Builders, Railroad Compan'es, and the public to examine its superiority over other

ARCHITECTS AND BUILDERS should not fall to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and excands with the changes of the atmosphere, and will neither evaporate crack nor rot; and, as to durability, there is no question. t is practically imperishable, and will perfectfully resixt any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will en-gage to put our Roofing on over ordinary good heathing, old shindes, tay ind gravel, tin, sinc, copper, or iron roofs -it making no difference how steep or flat they may be-for seven dollars per one hundred square feet; it being fa-

cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scutiles, dormar windows, and gutters, a here the tin is rusted through. This Coment can be put on to last as long as stone, and form a perfect addission to any ob-ject to which it is applied. Tin Roofs can be painted over (and warranted not to lesk) at two d llars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best theng for covering large stoofs where they are exposed to fir —such as Sceam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and, in fact, ev. ry kind of Boof where there is an external exposure from fire. As the Roof is perfect, without a joint a it, it presen s no chance for fire to communicate, and any ight sub-tance will burn out without igniting. where Childs & Co.'s tement has been used, insure Buildings with Roofs covered with this Cement, at the same who will give us a call.

Septis—2m. The Cement will be furnished to those at a distance

office, will be promptly attended to J. T. NATHURST. No. 24, Spruce Street.

TESTIMONIALS AND REFERENCES. OFFICE BUCKEYS STATE INSURANCE COMPANY, * INCINNATI, Dec. 16, 1856 TO ALL WHOM IT MAY CONCERN: This is to certify that have examined specimens and Roofs of W. E. Chibis & Co." "Elastic Fire and Water Proof cament Roofing," and be lieve it to be eminently superior to any other aind of Roof ing in use. I was an eye withers of a severe trial of one of these toofs from a large volume of flame from an actioning building, which struck directly upon the roof and cornice or nearly half an hour. It stood the tria beyond all expectation, and saved the building. T. M. HASKELL,

resident Buckeye State Insurance Co CINCINNATI AGENCY ROYAL INSURANCE COMPANY, I Water Proof Cement Roofing," and as far as I can judge, W ties of Plass manufactured at this Establishment. ider it a great invention, and am willing to insure childings thus protected upon the same terms as I maure furnished at factory prices. Agent Royal Ins. Co., London and Liverpool.

OFFICE OF THE CIN., HAW AND DAYTON RAILHOAD. Childs & Co.'s Patent Cement Roofing is now used here on our best class of Buildings. We are covering our Freight Cars with it, and our Master M chanic reports very favor-S. S. L'HOMMaDIEU, Pres. From J. B. Bennett, General Agent of Ætna Ins. Co. for the Southern and Western States.

by Childs & Co., I had it to be highly reconstructed in the city by many excellent judges; that it is meeting with very ready and general introduction; that its superiority over the tar composition Roofing is decided and freely admitted; and finally, I expect to adopt it for my next roof, which will be next summer—having intended to use the, but will try the virtue—of the "Patent Elastic Roofing" as a substitute.

Yours trule:

J. B. BENNETT. J. B. BENNETT. Yours, truly, OFFICE OF THE OHIO AND MINISSIPI KAILROAD CO., CINCINNATI, Jan. 7, 1857. DEAR SIR:-In answer to your inquiry, in reference to our opinion as to the practical use of your hoof in the cover-ng of cars, we may say that from our observation we en-

tertain a very favorable one, -so much so, that we intend testing it thoroughly on roofs of buildings, cars, &c; after which we will with pleasure give you our decided opinion as to its utility. Yours, truly, E. LippenCOFT, Supply Agent Ohio a Mi s. R. R.

Since the above was written, the Ohio and Mississippi Railroad have contracted for covering it eir cars, de-pots and bridges between Cincinnati and Vincences, with this Cement, considering it the best article they have used for the nursus.

THE GREATEST INVENTION OF THE AGE. West's Patent Galvanic Cement

For Roofing. THE author ber is now reprired to cover noof, of build-lars with a new and better article that ever before known. The public are aware that our Government has had elentificmen excerimenting, and that it has been the study of A chiceets and builders, for years, to discover an article for roofing purposes, that would stand the sudden changes of the seather, and he impervious to fre any water, and remain a permanent flature. As yet, nothing has been attained without certing more than the people with. The contraction, expansion and rusting of metal roofs, are so great in changrable climates, that they become usels s, unless being repaired at great expense wearly. Thingles are not hire proof, and cannot be used on Nearly. The gles are not are proof, and cannot be used on flat rofs, and the various Compositions and Cements that have be a brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosts, and after one or two years become or unity, and worthless; whereas, the inventor of the Gally-vinc ement, has labored twenty years to combine articles to obviate those difficults, and can testify from his long experience, and an errors to timonials from reliable necessary, who have had his combination applied to the persons, who have had his combination applied to their buildings that his fement is the changest and best atteler ever before known. The combination of this Ce sent is such that it is exculated for entile new roofs, flat or seep, cov-ering over old shingles without removing them; lining eav -troughe, seaming around battlements, chimneys an ty-lights. Covering car-tors, steamer-decks, &c. This comert, by its non-conduction and gaivant in, prevents metal roofs from rusting and unsoldering, and resists the extremes of heat and cold, better than any thing ever invented, for entire roofs or for covering metal and the out-ide of wood buildings, making them fire proof. Its ap-pearance is like state; beautiful for the rich palace or the The undersigned having secured the right to the State of Tennessee, will sell rights of Territory, by Counties or Towns, or reasonable terms.
